MAKING BETTER PHOTOS WITH YOUR DIGITAL CAMERA

Rusty Rae, Instructor

This class combines learning to use the features of your camera with the technical requirements of photography to become a better photographer. The class includes sections on Camera Math, using your light meter more effectively, lens selection, adding light (including flash), closeup, people photography, and a short section on Photoshop basics. The course is designed for all photographers using adjustable cameras (as opposed to simple point and shoot cameras). Bring your camera's manual to class.

THE AMAZING DREMEL !

Jill Timm, Instructor

Expand your artist's tool box! The dremel is a magical tool that lets you drill, cut, carve, etch, shape, polish, and grind materials such as glass, plastic, wood, metal, tile, and more. In this two-day class you'll work with hard and soft materials using dozens of bits contained in the tool box purchased from the instructor. You'll make a small book filled with all the samples you created in various materials. This class will help you to create in a whole new way! Great for book artists, printmakers, jewelers, sculptors, or anyone wanting to work with materials beyond paper and fabric. All skill levels are welcome. Supply list upon registration. Sign up early, class size is limited.
